04 | Explorer

Thank you for your interest in Ford Explorer.

One reason Explorer is the SUV more people know and trust is its list of features. Like the standard Personal Safety System™ that uses advanced sensors to optimize Explorer's safety performance. Or the Independent Rear Suspension that, along with the standard 4.0L SOHC V6 engine, gives Explorer its dynamic on- and off-road capabilities. And the easiest to fold available third-row seat, flexible 40/20/40 second row and new available quad bucket seating add to Explorer's versatile interior.

But there's more to being a Ford owner than just driving a great vehicle. There are perks like the My Ford owner website where you can manage all of your vehicle information in one place. Register today at www.fordvehicles.com. One test-drive and you'll see why Explorer has been the best-selling SUV 12 years running.

Explorer Eddie Bauer in Estate Green Metallic with optional roof rail crossbars

At Ford Credit, auto financing is our specialty. Whether you purchase or opt for a Red Carpet Contract, we offer a range of terms and features that make your experience hassle-free. Contact your local Ford Dealer or visit us on the Web at www.fordcredit.com.

Explorer XLT Sport in Red Fire Metallic with optional roof rail crossbars

The most trusted SUV in America.*

Ford Explorer has been America's best-selling SUV 12 years running and has inspired more people to come back to an Explorer than any other SUV in its class.** Why? Because Explorer has continued to innovate, giving people what they need in an SUV. Like a fully Independent Rear Suspension and the enhanced control of the available AdvanceTrac® Enhanced Stability Control System. Together, they give Explorer its smooth ride and driving control. Another is the available third row that folds faster and easier than any other in its class.** And then there's the standard Personal Safety System™ that uses advanced sensors to determine occupant position and crash severity. And with other features like the available Quad Bucket Seating Group and Rear Seat DVD Entertainment System, you'll find that Explorer does more than offer security, capability and convenience – it's an SUV you can count on for years to come.

*Based on repurchase numbers among '93-'03 new vehicle buyers.

**Class is mid-size SUVs.

Explorer Eddie Bauer in two-tone leather trim

5

1 Explorer's Independent Rear Suspension allows each wheel to move independently of the other, resulting in a smooth ride. **2** The available Rear Seat DVD Entertainment System includes a fold-down 7" LCD screen, two sets of wireless headphones and a remote control. **3** The easiest and fastest folding available third-row seat disappears into the

load floor for more cargo space. **4** To help you maintain control during slippery or uneven road conditions, opt for the available AdvanceTrac® Enhanced Stability Control System. **5** Seat up to five, six or seven in Explorer's versatile interior. Shown here is Explorer Eddie Bauer in two-tone Medium Parchment leather trim.

Ford Explorer vs. Chevrolet TrailBlazer

Explorer has led the way for 12 years. Now see for yourself how Ford Explorer compares to the Chevrolet TrailBlazer. And for even more comparisons, be sure to visit www.fordvehicles.com.

Dealer Accessories

Add the new SIRIUS® Satellite radio service to the optional Audiophile™ Sound System to get 100 music and entertainment channels coast-to-coast. Information about the artist, the song title and album name are also shown on the display panel. See your Ford Dealer about activation details.

Audiophile is a trademark of Audiophile, Inc.

*SIRIUS capable. SIRIUS is a dealer-installed option.

Holding one or two bikes, the Quarter ROC™ Bike Carrier fits into Explorer's standard hitch mount. And now when you need to get into your cargo area, simply swing the carrier down rather than removing the entire carrier.

The cargo organizer features an adjustable/removable divider system and a tie-down net to keep items in their place.

Captain's comfort, now in the second row.

Explorer's optional Quad Bucket Seating Group includes two leather-trimmed captain's chairs in the first and second rows, allowing both driver and passengers to adjust their seats to their own comfort. The second row also has its own center console featuring a padded surface large enough to hold a laptop, a storage bin and two cupholders. A 60/40 second-row configuration comes with every Explorer. But when you opt for third-row seating, a flexible 40/20/40 second row becomes standard. The outboard sections of the 40/20/40 second row can be lowered from either side and folded forward for easy third-row access.

Your “best pick” for safety.

Explorer has earned a “best pick” from the Insurance Institute for Highway Safety. That’s because every Explorer is built with safety systems and equipment designed to help protect you. At the core is the standard Personal Safety™ System with sensors that detect whether an occupant is in the front seat and crash severity conditions. The system then uses this information to determine at which level to deploy an airbag* or to remove slack from safety belts.

The available Safety Canopy™ System deploys side curtain airbags (in certain side impact or rollover events) to enhance head and shoulder protection. We also equipped Explorer with steel beams inside its doors and crumple zones in front to prevent intrusion. And with other features like child safety seat tether anchors, you’ll feel confident and secure every time you get behind the wheel.

*Always wear your safety belt and secure children in the rear seat.

IF YOU HAVEN'T LOOKED AT FORD LATELY, LOOK AGAIN.
